Author Index

Agbogba, C.
Absence of temporal polyethism in the ponerine ant *Pachycondyla caffraria* (Smith) (Hymenoptera : Formicidae): Early specialization of the foragers (32) 47
Al-Maliki, S.J.
The behavioural and reproductive consequences in offspring (first generation) of mice continuously exposed to a strong magnetic field (32) 229
Alleva, E., see Dell'Omo, G. (32) 105

Barnard, C.J., see Smith, J. (32) 79
Bouissou, M.F., see Vandenheede, M. (32) 17
Bovet, J.
Homing in humans: A different look (32) 197
Braza, F., Braza, P., Carreras, M.R. and Muñoz, J.M.
Factors affecting the social ability in pre-school children: An exploratory study (32) 209
Braza, P., see Braza, F. (32) 209

Carreras, M.R., see Braza, F. (32) 209

Dawson, G.R., see Heyes, C.M. (32) 173
Dell'Omo, G., Fiore, M. and Alleva, E.
Strain differences in mouse response to odours of predators (32) 105
Dubois, M., Gerard, J.F. and Vincent, J.P.
Areas of concentrated use within seasonal ranges of Corsican mouflons: Importance of psychophysiological and ecological contexts in their modulation (32) 163

Elwood, R.W., see Santucci, D. (32) 285

Fiore, M., see Dell'Omo, G. (32) 105

Gerard, J.F., see Dubois, M. (32) 163

Heyes, C.M., Jaldow, E., Nokes, T. and Dawson, G.R.
Imitation in rats (*Rattus norvegicus*): The role of demonstrator action (32) 173
Huntingford, F.A., see Thorpe, K.E. (32) 235
Hurst, J.L., see Smith, J. (32) 79

Innis, N.K.
Why bond? A review of The Inevitable Bond: Examining scientist-animal interactions (32) 101

Jaldow, E., see Heyes, C.M. (32) 173
Jormalainen, V., Tuomi, J. and Yamamura, N.
Intersexual conflict over precopula duration in mate guarding Crustacea (32) 265

Kudryavtseva, N.N.
Experience of defeat decreases the behavioural reactivity to conspecifics in the partition test (32) 297

Leung, J.-P.
Psychological distance to reward: The aversiveness of the first component stimulus in a chain (32) 67

Mak, T., see Wilkie, D.M. (32) 87
Mandell, C. and Sheen, V.
Equivalence class formation as a function of the pronounceability of the sample stimulus (32) 29
Masterson, D., see Santucci, D. (32) 285
Muñoz, J.M., see Braza, F. (32) 209

Nakajima, S.
Contextual control of Pavlovian bidirectional occasion setting (32) 53
Nokes, T., see Heyes, C.M. (32) 173

Palanza, P. and Parmigiani, S.
Functional analysis of maternal aggression in the house mouse (*Mus musculus domesticus*) (32) 1
Parmigiani, S., see Palanza, P. (32) 1
Pick, C.G., see Shye, S. (32) 117

Reid, A.K.
Learning new response sequences (32) 147

Saksida, L.M., see Wilkie, D.M. (32) 87
Santucci, D., Masterson, D. and Elwood, R.W.
Effects of age, sex, and odours from conspecific adult males on ultrasonic vocalizations of infant CS1 mice (32) 285
Sheen, V., see Mandell, C. (32) 29
Shye, S., Yanai, J. and Pick, C.G.
Directional consistency: Determinant of learned maze performance of five mice strains (32) 117
Smith, J., Hurst, J.L. and Barnard, C.J.
Comparing behaviour in wild and laboratory strains of the house mouse: Levels of comparison and functional inference (32) 79

Takahashi, M.
Concurrent schedule control of monkey's observing during vigilance (32) 133
Taylor, A.C., see Thorpe, K.E. (32) 235
Thorpe, K.E., Huntingford, F.A. and Taylor, A.C.
Relative size and agonistic behaviour in the female velvet swimming crab, *Necora puber* (L.) (Brachyura, Portunidae) (32) 235
Towse, J.N., see Wearden, J.H. (32) 247
Tuomi, J., see Jormalainen, V. (32) 265

Vandenheede, M. and Bouissou, M.F.
Fear reactions of ewes to photographic images (32) 17
Vincent, J.P., see Dubois, M. (32) 163

Wallace, R.J.
Gnawing and retrieval of inedible objects by Norway rats: Motivational interactions and habituatory effects (32) 183
Wearden, J.H. and Towse, J.N.
Temporal generalization in humans: Three further studies (32) 247
Wilkie, D.M., Mak, T. and Saksida, L.M.
Pigeons' landmark use as revealed in a 'feature-positive', digitized landscape, touchscreen paradigm (32) 87

Yamamura, N., see Jormalainen, V. (32) 265
Yanai, J., see Shye, S. (32) 117

Subject Index

Acquisition, (32) 147
Agonistic behaviour, (32) 235
Animal learning, (32) 147
Ant, (32) 47
Anti-predatory behaviour, (32) 105
Aversiveness, (32) 67

Behaviour, (32) 229

Callow, (32) 47
Chained schedule, (32) 67
Choice, (32) 133
Comparison between strains, (32) 79
Concurrent variable-interval schedule, (32) 133
Conditional discrimination, (32) 29, (32) 53
Conspecifics, reactivity to, (32) 297
Context, (32) 53
Crustacean, (32) 235

Defeat, (32) 297
Deprivation, (32) 183
Development, (32) 285
Digitized image, (32) 87
Directional consistency, (32) 117
Division of labour, (32) 47

Facet theory, (32) 117
Fear reaction, (32) 17
Feature-positive discrimination, (32) 87
Female, (32) 235

Game theory, (32) 235
Gnawing, (32) 183

Habituation, (32) 183
Hoarding, (32) 183
Homing, (32) 197
House mouse, (32) 79
Human, (32) 197

Image recognition, (32) 17
Imitation, (32) 173
Inbred mice, (32) 105
Infanticide, (32) 1, (32) 285
Intermale aggression, (32) 1

Landmark, (32) 87
Learning, (32) 117
Loser, (32) 297

Magnetic field, (32) 229
Matching law, (32) 133
Matching-to-sample, (32) 29
Mate guarding, (32) 265
Maternal aggression, (32) 1
Measurement of social ability, (32) 209
Mice, (32) 229
Monkey, (32) 133
Motivation, (32) 183
Mouse, (32) 117, (32) 297
Multidimensional scaling, (32) 117
Multiple scaling, (32) 117
Mus musculus, (32) 79

Necora puber, (32) 235
Norway rat, (32) 183

Observational learning, (32) 173
Observing response, (32) 133
Occasion setting, (32) 53
Odour, (32) 285
Offspring, (32) 229
Orientation, (32) 197
Oryctolagus cuniculus, (32) 105

Pachycondyla caffraria, (32) 47
Pain reactivity, (32) 105
Parental investment, (32) 209
Pigeon, (32) 53, (32) 67, (32) 87
Ponerinae, (32) 47
Precopula, (32) 265
Predator odour, (32) 105
Pre-school children's socialisation, (32) 209
Pronounceability, (32) 29
Psychological distance, (32) 67

Radial eight-arm-maze, (32) 117
Rat, (32) 173
Rats, (32) 147
Reinforcement theory, (32) 147
Reproductive, (32) 229
Response strength, (32) 147
Rodent, (32) 285

Scalar timing, (32) 247
Seasonal home range, (32) 163
Segmentation, (32) 67
Sequence learning, (32) 147
Sex ratio, (32) 265
Sexual conflict, (32) 265
Sexual difference, (32) 163
Sexual selection, (32) 1
Sheep, (32) 17
Smallest space analysis, (32) 117
Social behaviour, (32) 79
Social competence in context, (32) 209
Social learning, (32) 173
Spatial behaviour, (32) 163
Spontaneous alternation, (32) 117
Spontaneous vs. learned performance, (32) 117
Stimulus equivalence, (32) 29
Survival, (32) 265

Temporal generalization, (32) 247
Timing behaviour, (32) 247
Touchscreen, (32) 87

Ultrasonic vocalization, (32) 285

Velvet swimming crab, (32) 235
Vigilance, (32) 133
Vulpes vulpes, (32) 105

Wild ungulate, (32) 163
Winner, (32) 297
Worker, (32) 47
